

2nd International Conference

Current Issues in Coincidence Analysis

19 – 20 May, 2023, Prague University of Economics and Business

Description

This is the second international conference dedicated exclusively to the configurational comparative method of Coincidence Analysis (CNA), which has seen a significant uptick in applications in recent years, particularly in public health. The conference provides a platform for exchange between CNA methodologists and applied researchers. The newest methodological developments and open questions will be presented alongside exemplary applications from public health, surgical research, social and behavioral science.

Program

Friday, 19 May 2023

09:15 - 09:30	Welcome
09:30 - 10:30	Deborah Cragun (Univ. of South Florida): Real-world examples illustrating challenges and considerations when building, selecting, and presenting CNA models
10:30 - 10:50	Break
10:50 - 11:50	Edward Miech (Regenstrief Institute): A bottom-up approach to factor selection in CNA: Findings from a reanalysis of three QCA-based studies using the "msc" routine
11:50 - 13:00	Lunch
13:00 - 14:00	Veli-Pekka Parkkinen (Univ. of Bergen): Measuring the robustness of CNA models
14:00 - 14:10	Break
14:10 - 15:10	Reiping Huang (Northwestern): Evaluating the implementation of a multi-component surgical quality collaborative
15:10 - 15:30	Break
15:30 - 16:30	Ole Henning Sørensen (NFA Denmark): Simple roads to failure, complex paths to success: An evaluation of conditions explaining perceived fit of an organizational occupational health intervention
18:30	Workshop Dinner

Saturday, 20 May 2023

09:30 - 10:30	Luna De Souter (Univ. of Bergen): Evaluating Boolean relationships in Configurational Comparative Methods
10:30 - 10:50	Break
10:50 - 11:50	Jonathan Freitas (Univ. of Minas Gerais): A CNA of CNAs: Searching for causal models of the performance of the method
11:50 - 13:00	Lunch
13:00 - 14:00	Martyna Swiatczak (Univ. of Bergen): To be or not to be a good leader? A Coincidence Analysis of identity leadership, work-related attitudes, and burnout
14:00 - 14:30	Break
14:30 - 15:30	Trond Løkling (NTNU Trondheim): What makes workplace conflict deescalate? A Coincidence Analysis on longitudinal panel data
15:30 - 15:45	Closing
